## Cohen's Lottery and Exchange-Office.

## Hoc signo Fortuna.

BALTIMORE—WEDNESDAY, NOVEMBER 15, 1826.

## An Even Number Again!

Agreeably to announcement the drawing of the GRAND STATE LOTTERY OF MARYLAND, No. 8, took place this day. Our Official List of the whole will be found on the opposite page. The great capital prize of FIFTY THOUSAND DOLLARS, (an Even No. 31,960) is owned by the STATE, the ticket having remained unsold in the hands of the Commissioners, and consequently the property of the Commonwealth. We do not wish to delay our publication, and have only time this evening to say, that several other of the important prizes also fell to the State. The 6,000 dollar prize, the only one divided in shares, we sold in shares of Half, Quarter and two Eighths—the whole of them sent to distant adventurers.

The proceeds of this scheme of the State Lottery being appropriated by act of the Legislature of Maryland, towards finishing the WASHINGTON MONUMENT, in the city of Baltimore, we have much pleasure in announcing that the good fortune of the State as above, will go very far to complete the Column, with the Colossal Statue, as intended by the original design.

## 3d Class Virginia State Lottery.

On the opposite page, we have the pleasure to present the THIRD and last class of the VIRGINIA STATE LOTTERY, for the Benefit of the Monongalia Academy.—We have much pleasure in announcing to the public that the whole amount authorized to be raised by the General Assembly for that institution will be realized by the Trustees on the completion of the drawing of the scheme now presented—anticipating the same liberal patronage which we have the gratification of acknowledging to have received in the first and second classes, and which, no doubt, we shall have continued to us, in this, the closing scheme; the promotion of Education, being now the subject of primary importance throughout the Union.

It will be noticed that the scheme is not arranged on the Odd and Even system, a circumstance which we regret, in consequence of the established and unrivalled popularity of that mode of drawing—the cause of the change was the want of capital, there being only a gross amount of \$49,000 left of the privilege granted by the State, of course, of this small sum, if we had arranged a scheme on the Odd and Even, we should not have been able to present a capital prize of sufficient magnitude, unless we had reduced the small prizes to a much lower denomination than the price of tickets—as it is, however, we have arranged a snug, and comparatively, brilliant scheme; in fine, taking into view the limited amount of capital, probably no scheme could have been offered with such little risk, for the small sum of three dollars, with a capital prize of the handsome denomination of TEN THOUSAND DOLLARS.

## Another Drawing next Tuesday.

Agreeably to announcement, the drawing of the second class of the Grand State Lottery of Virginia will take place at Richmond on Tuesday the 15th Inst. The drawing occurring so immediately upon the close of the Maryland Grand State scheme, will not allow time for adventurers to renew their small prizes in it—the opportunity, however, for renewals of both, is afforded by the THIRD CLASS of the VIRGINIA, the scheme

of which will be found on our 3d page.—Our remarks on it are given in the preceding paragraph.

## Renewals of Small Prizes.

The holders of prizes drawn in the Grand State Lottery of MARYLAND should have them renewed without delay in the 3d class of the VIRGINIA, the scheme of which is presented on the next page. The price of the tickets being very low (only 3 dolls.) will allow a pleasing exchange of upwards of two for one, exclusive of change sufficient for postage. This is much more favorable than usual, for it is generally the case that the adventurer on renewing a small prize is required to advance some small amount; here the contrary occurs, for he will have to receive.—The tickets will soon become scarce, as it will be recollected that not only will renewals of the small prizes of the MARYLAND be made in this new scheme, but also the small prizes of the second VIRGINIA, which is to be drawn next Tuesday.—We will only add, that, as usual, the letters of our distant friends, with instructions, will meet the same strict attention as if personally presented.—Be particular in addressing to J. I. COHEN JR. & BROTHERS.

*Mr. Jefferson's Estate.*—We observe in the Richmond Enquirer an advertisement of the late Thomas Jefferson, on the 15th January next at Monticello. The following are some of the articles mentioned: 130 valuable negroes, stock, crop, &c. household and kitchen furniture. The attention of the public is earnestly invited to this property. The negroes are believed to be the most valuable for their number ever offered at one time in the state of Virginia. The household furniture, many valuable historical and portrait paintings, busts of marble and plaister of distinguished individuals; one of marble of Thomas Jefferson, by Caracci, with the pedestal and truncated column on which it stands; a plograph or copying instrument used by Thomas Jefferson, for the last twenty-five years; with various other articles curious and useful to men of business and private families.

## IMMENSE ACCUMULATION.

In a late London paper, under the head of "Births," it is announced that the lady of the Hon Arthur Thelluson has been delivered of a son and heir, at Ribbesford House, in this county. This circumstance having given rise to some conversation relative to the extraordinary will of Peter Thelluson, the following particulars may not be unacceptable to our readers:—Peter Isaac Thelluson was a native of Geneva. He settled as a merchant in London, where he acquired by his industry an enormous fortune. He died at his seat at Plaistow, Kent, July 21, 1795, leaving three sons and three daughters. To his wife and children he left about one hundred thousand pounds. His large estate in Yorkshire, and the residue of his fortune, amounting to upwards of five hundred thousand pounds, he left to trustees to accumulate, and be laid out in the purchase of estates in England, till the male children of his sons and grandsons are dead. This distant period may extend to 120 years, in which case the property will then amount to one hundred and forty millions, and if there should be no lenial descendant, this astonishing property is to go to the use of the country, to the benefit of the Sinking Fund, under the direction of Parliament. This extraordinary Will was disputed by his surviving family, but it was affirmed by a solemn decree of Chancery; though afterwards an Act was passed, by the means of Chancellor Rosslyn, to prevent the recurrence of so extravagant a desire of private accumulation.

*Water proof Boots and Shoes.* As the season for wet feet is approaching, we insert the following article from the Baltimore Patriot.

Take gum elastic, commonly called *Indian Rubber*, cut into fine shreds, and put about one ounce of it in a half pint of Seneca oil, or petroleum.—Let the mixture stand about a week, at the end of which time the gum will be dissolved, and a thick elastic varnish formed, which may be applied to the boots or shoes with a brush, and will be absorbed by the leather—the varnish to be applied once a day till the leather is saturated, when the shoes will be perfectly water proof, and rendered soft and easy to the feet. If, in the preparation of leather, this varnish was used instead of common tanner's oil, the object would be more perfectly attained. Seneca oil is produced in our country in great abundance, and costs little, if any, more than tanner's oil, and the gum elastic is very cheap. I made the discovery, that gum elastic may be dissolved in Seneca oil, about a year since, and now publish it *pro bono publico*.

## Foreign and Domestic Gleanings.

*William and Mary College.*—This ancient and celebrated institution, which has educated more great men than all the colleges in the United States put together, is again organized, and under auspices which promise a splendid revival.

*Hall of the House of Representatives.*—Mr. Strickland, agreeably to a resolution of the house, has examined the hall, with a view to render it more suitable for the purposes of a deliberative assembly, &c. It seems agreed that a horizontal glass covering of the hall, to prevent the sound of the voice from passing into the dome, will accomplish the object. It may be made ornamental, and will probably cost 5 or 6,000 dollars. It cannot be prepared in time for the ensuing session.

[Ailes' Register.]

*Pickle for Beef and Pork.*—The following receipt is strongly recommended. Six gallons water; 6 pounds salt, coarse and fine mixed; 3 pounds sugar; 3 ounces salt-petre; 1 ounce pearl-ash; 1 gallon molasses to every 6 gallons water. In making a larger or smaller quantity of pickle, the above proportions are to be observed. Boil and skim the ingredients well.

*Brewing.*—The London Mechanic's Magazine gives the following instructions for brewing "on a small scale."

'The art of brewing is exactly similar to the process of making tea. Put a handful of malt into a tea-pot; then fill it with water, the first time rather under boiling heat. After it has stood some time, pour off the liquor, just as you would tea, and fill up the pot again with boiling water; in a similar manner pour that off, and so go on filling up and pouring off, till the malt in the pot is tasteless, which will be the case when all the virtue is extracted. The liquor, or malt tea, thus extracted, must then be boiled with a few hops in it, and when it becomes cool enough, that is, about blood heat, add a little yeast to ferment it, and the thing is done. This is the whole art and process of brewing and to brew a larger quantity requires just the same mode of proceeding as it would to make a tea breakfast for a regiment of soldiers. A peck of malt and four ounces of hops will produce ten quarts of ale, better than any that can be purchased in London, and for which purpose a tea kettle and two pan mugs are sufficient apparatus.'

Those Numbers to which no prizes are affixed are prizes of *Twelve Dollars* each—those ending with either 2, 4, 6, 8 or 0, being *Even Numbers*, are entitled to *Nine Dollars* additional, being equal therefore to *Twenty-one Dollars* each.

All Tickets ending with 1, 3, 5, 7, or 9, and not to be found amongst the above, are *Blanks*.

## 31.960, an Even Number

Having drawn the Capital Prize of FIFTY THOUSAND DOLLARS, agreeably to the scheme every *Even Number* in the Lottery is entitled to a prize of *NINE DOLLARS*, and in addition to whatever sum any of them may have drawn besides.

All Tickets with Numbers ending 2, 4, 6, 8 or 0, are those entitled to the \$4 prizes.

Many Tickets, consequently, have obtained TWO PRIZES EACH!—for example, No. 7893 (see list above) having drawn *Twenty Dollars*, and being an *Even Number*, is entitled to a prize of nine dollars also; therefore No. 7893 will receive *Twenty-nine Dollars*, &c. Again, No. 10,320 (see list above) having drawn a prize of *Fifty Dollars*, and being an *Even Number*, is entitled also to one of the nine dollar prizes; consequently, No. 10,320 will receive *Fifty-nine Dollars*, and so on.

J. I. COHEN, Jr. & BROTHERS.

## Third Class.

### GRAND STATE LOTTERY OF VIRGINIA,

For the Benefit of the Monongalia Academy.—The mode of drawing secured by Letters Patent under the Seal of the

UNITED STATES OF AMERICA,

And will take place in the City of Richmond,

The whole In One Day.

HIGHEST PRIZE,  
**\$10.000**

SCHEME.		
1..of..	\$10,000.....	\$10.000
1.....	5,000.....	5.000
4.....	1,000.....	4.000
20.....	100.....	2.000
20.....	50.....	1.000
200.....	10.....	2.000
200.....	5.....	1.000
6000.....	4.....	24.000

6.446 Prizes.....\$49,000

13.554 ———

20,000 Tickets.....\$49,000

All Prizes payable in CASH, which can be had at COHEN'S OFFICES, the  
**Moment they are Drawn.**

MODE OF DRAWING.—The numbers will be put into one wheel as usual—and in the other will be put, the prizes above the denomination of Ten Dollars, and the drawing to proceed in the usual manner. The 6000 prizes of Four Dollars will be awarded to the tickets, the numbers of which end with the terminating figure of either of the three first drawn of different terminations. The Five Dollar prizes will be awarded to the tickets having the two last figures corresponding with the two last figures of the number of the next drawn of a different termination—and the Ten Dollar prizes will be awarded to the tickets having the two last figures corresponding with the two last figures of such number of the following drawn of a different termination.

This mode will permit the whole Lottery to be completed in ONE DRAWING—and a ticket drawing a superior prize will not be restricted from drawing an inferior one also.

PRESENT PRICE OF TICKETS.

**Ticket \$3.00 Quarter 75 cts**  
**Half.....1.50 Eighth.....37 cts**

To be had in the greatest variety of Numbers at

**Cohen's**  
LOTTERY AND EXCHANGE OFFICES.

ORDERS from any part of the United States, either by mail, (post paid) or private conveyance, enclosing the Cash or Prize Tickets in any of the Lotteries, will meet the same prompt and punctual attention as if on personal application. Address to

J. I. COHEN, JR. & BROTHERS.

### FOREIGN BANK BILLS.
